## About Us

SHEBA MANAB KALLYAN KENDRA -SMKK is a Non-profit, Non-political, Voluntary development organization established in 1996. SMKK was established with the aim to mobilize disadvantaged and destitute people in improving their overall socio-economic status and livelihood. Over time, SMKK has gained tremendous achievement through mobilization and implementation of multi sectoral projects and programmes supported by multifarious donors such as UN-WFP, UNDP, USAID, European Union, FAO, DFID, Penny Apple, United Purpose, Islamic Relief Worldwide, Love Army, WINROCK International-USA, DAE, BWDB, IDB, EIP-The Netherlands, , HOPE'87-Austria, Muslim Aid, CARE, CDD, DANIDA, DAI, FTF, World Fish Center, Bangladesh NGO Foundation(BNF), SWISS CONTACT, SONNE International-Austria, Stromme Foundation, Save the Children, Love Army, Bangladesh Govt. including Ministry of Primary &Mass Education, Ministry of Labour & Employment and Bangladesh Bank. It has gained a significant institutional competency to implement larger initiatives for achieving development objectives.

# Prologue

It is my immense pleasure that SHEBA MANAB KALLYAN KENDRA-SMKK is going to publish its Annual Report 2019. SMKK has traversed successfully another eventful year 2019, its 23rd year of operations in the field of livelihood, food security/poverty reduction, women empowerment and capacity building. Some new areas have been covered during the year under the partnership with government, national & international donors including. As part of the commitment to keep informed the stakeholders including donors and local government authorities on the activities undertaken during the year, this Annual Report has been publishing for year 2019 containing statement of different activities, achievement, outcomes and successes as well constraints.

Since its inception in the year 1996, SMKK has unremittingly been working hand in hand with the poverty-stricken people of different districts with particular focus in the southern districts of Bangladesh. During the year 2019, total of 19 projects are being implemented by SMKK through which more than 102,512 beneficiaries were covered under its services.

Our deepest gratitude to Bangladesh Government, UN-WFP, UNDP, USAID, European Union, FAO, DFID, Penny Apple, United Purpose, Islamic Relief Worldwide, Love Army, WINROCK International-USA, DAE, BWDB, IDB, EIP-The Netherlands, HOPE'87-Austria, Muslim Aid, CARE, CDD, DANIDA, DAI, FTF, World Fish Center, Bangladesh NGO Foundation(BNF), SWISS CONTACT, SONNE International-Austria, Stromme Foundation, Save the Children and Bangladesh Bank for their financial and technical assistance and guidance in implementation of the projects.

We are delighted to recognize the active cooperation from the local administration, especially the Deputy Commissioners (DC) of Bagerhat, Pirozpur, Barguna, Patuakhali, Bhola, Khulna, Satkhira, Jessore, Rangpur, Dinajpur, Sylhet, Comilla, Cox's Bazar and Dhaka. The Upazila Nirbahi Officer (UNO) of the respective Upazilas who were provided timely and active support in different phases of the project implementation. I thankfully acknowledge the patronage and inspirations received from the Mayors and UP Chairmen, Ward Members and other elites from the working area.

I am indebted to who have rendered their support to SMKK for its institutional growth. Finally, I am taking the opportunity for appreciation to all hard-working staff members who have been found to be enthusiastic in their respective field. It would not be possible to uphold the image of the organization without having their dedication and sincerity toward accomplishing the assignments; I would like to thank project participants for their active participation and devotion.

**M. Manjur Kadir**

# Executive Summary

Sheba Manab Kallyan Kendra (SMKK) is a non-profit, non-political voluntary development organization, established in January 1996 and working since the inception of the organization, it has been implementing integrated development projects/programmes with the poorer section of the community with particular focus to address the rights of children and women for bringing a positive change in their livelihood. Over time SMKK has gained experience and capacity by working on various development issues with technical and financial support from multifarious donors. It has gained a significant institutional competency to implement larger initiatives for achieving development objectives.

SMKK has a team of 384 staff and volunteers who are well qualified and experienced to project implementation of livelihood, vulnerable group development & empowerment for wider adoption by its target beneficiaries, thus enabling them to attain improvement of livelihood standard. The organization has so far been involving over 4,90,065 people through development initiatives presently being implemented.

SMKK strongly believes in target population concept for its basic development efforts in which the focus is the destitute and disadvantaged poor with emphasis on children and women. The organization follows regular monitoring, feedback, sharing experiences and immediate action for the successful implementation of the projects/programmes. It is dedicated to foster qualitative and quantitative improvement in the living standard of the target beneficiaries.

SMKK has a policy to work in that area where the people are comparatively more vulnerable. Its programmes specially targeted to ensure its support to establish rights of the women, adolescent girls and children to remove social injustice and bring a society free from discrimination.

# Our Mission

- ✓ To promote own resource mobilization through strengthening capacity of the poor and extreme poor people and to facilitate them in undertaking need-based activities through active participation for their gradual development towards sustainable growth.

# Our Vision

- ✓ The poor and extreme poor people would be capable of building sustainable socio-economic status through active participation in diversified social actions.

# Governance of SMKK

SMKK is governed by two- tier governing body and general by body governance system. The basic governance lies with the governing body of SMKK. It comprises of 7 members, including the Executive Director of the organization as an ex-officio member. Mr. M. Manjur Kadir is working as Executive Director. In addition to the general body there is an executive committee which is assisted by advisors.

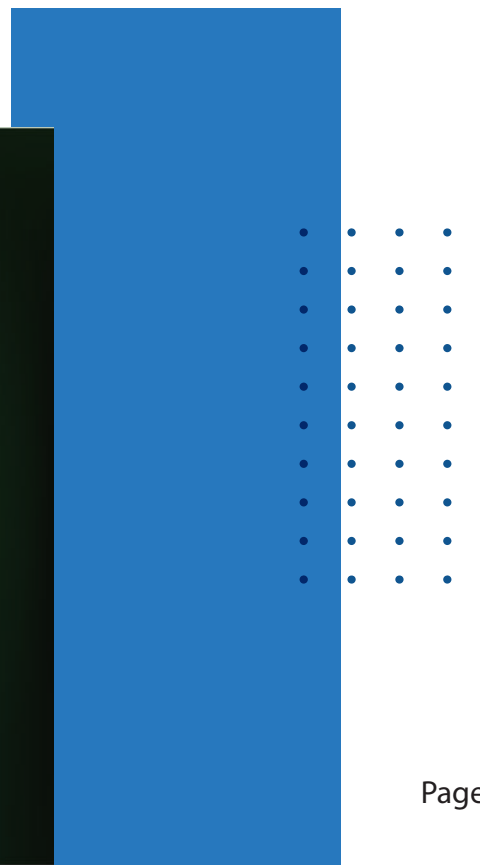

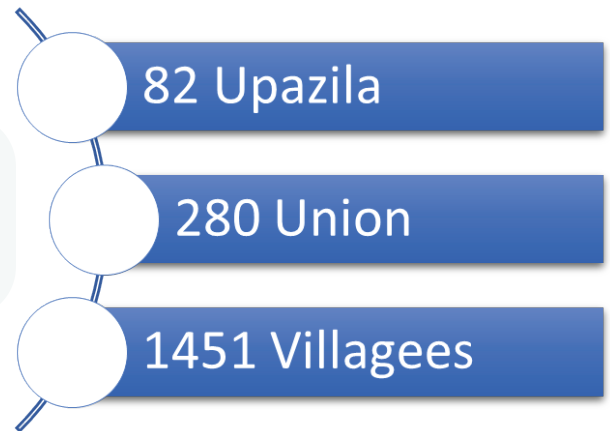

# Working Area

Over the years has grown into multifaceted development organization covering a total of 82 upazilas of 24 districts & 7 division and urban area 3 CC, 6 Municipality of the country till December 2018 and gradually expanding its programs to other areas.

500**

**Donor  
Muslim Aid Bangladesh**

20

# CONCLUDING WORDS

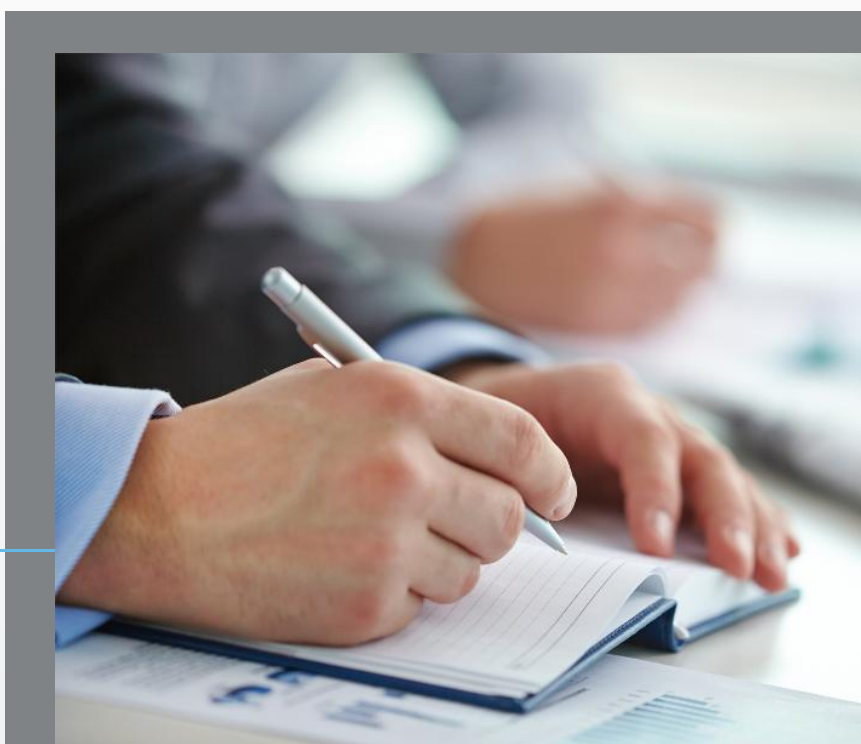

As a development organization, SMKK is committed to its target communities in eradicating their poverty and trying to address multifarious socio-economic issues which are encumbering the process of development. The organization follows the strategy of partnership and participatory program planning and implementation to build an ownership attitude among the target service recipients from which those beneficiaries can go forward with their own initiative and ultimately reduce the dependency on the external. SMKK always emphasizes the importance on baseline study and performance evaluation at different stages of the project implementation to improve the service delivery mechanism. These strategies are also improving the competences of the staff members through the feedback and lessons sharing from the evaluation. As usual, the overall performance of the projects implemented during the year of 2019 was found to be highly satisfactory. The project coordinators, /managers assigned for each project and the field team have shown their dedication in accomplishing their duties and tried to complete all planned activities within the time frame allowed for the project.

SMKK has running with the support from different national and international development partners. It is absolutely a non-profit organization and has no large fund for undertaking long term program for the target beneficiaries. Therefore, SMKK is placing its appeal for financial assistance from institutions and individuals to support in the development initiatives that urgently needed to support the disaster victims and other vulnerable communities.

SMKK has experienced and dedicated staff members who are committed to their jobs and the organization follows the strategy of human development for which we can assure that any resources received from the donors would be best utilized. Our financial management is more transparent and audited by the competent Chartered Accounting Firm in each year and has no restrictions for any donor agencies for verification.

We have strong relationship with the local administration and local government that privileged to ensure our services to the most deserve beneficiaries without any discrimination. We tried our best to reach the most vulnerable and deprived people and stands beside their initiative with our limited resources.

SMKK has persistently trailing forward to overcome those issues which are mentioned above. SMKK need cooperation and sharing of other development partners for consolidation of their hands. We acknowledged patronage and encouragements received all-way-long from a host of national and international friends and development partners and hoping their continual support in coming days as well.

CASE STUDY

## Your Smile, Our Ultimate Goal...

## IN BRIEF

### CHALLENGES

- Traumatized, mentally distressed
- Due to not having her father, she has to take responsibility of her family
- Unfavorable condition to go to the learning center

### SOLUTIONS

- Come to our CFS where protection is provided
- Fraternized with other children
- Counselling by the CFF
- Got opportunity to learn about basic norms, values, attitude
- Playing kits and drawing equipment are provided

### BENEFITS/OUTCOME

- **SMILE** on her face
- Lessened the burden of mental stress
- Got some quality times

## CASE STUDY

# A Story of a Gloomy Face

A face shaded with obscure, somber, obsessed with marks of negligence; instead of going to play with friends or school or even without a happy family living she has to carry bale of vegetables on her little shoulder. She is Rozina, a 10 years old little kid. She has lost her father and at such an early age she looks after her family as there is none capable of helping them.

Rozina is a FDMN, came from Myanmar almost one year five month ago with her family including her mother and four sisters. Her father died of diseases when they were in Myanmar. One of her sisters got married after coming in Bangladesh. First six months their days were going well as they got enough living materials as relief to live on. She was going to learning center (LC) to gather basic knowledge then. After a certain period of time relief goods are provided decreasingly and those are not sufficient for them. She thought to do something since she was the younger one in their family and her older sisters are not supposed to get out because of their conservative nature derived from their religious belief. She started to sell vegetables to the community people. These selling stuffs i.e. potato, brinjal, chilis, radish etc. she collects from 'Kutupalong' local market in morning and then go to their community to sell them. So gradually it is being difficult for her to go to LC continuously as there is an obligation to attend LC on a definite time on a regular basis. Moreover, the LC is at such a distance she cannot go there after returning to home from vending. As a result, after some days she stopped to go to LC.

*"I make everything comfortable whatever I need to do. But I was helpless, almost hopeless when I had to pass my time in home after finishing my work. There is no second choice to leave my work, but when I got into WCFS it was like a sachet to me which is full of live, full of Happiness"*

**Rozina,  
Camp 5, Block G 2**

At that time, she found her neighboring children going in nearby SMKK WCFS (Women and Child Friendly Space), she also started to go there with them. Usually WCFS provide protection, safety, security to children and the CFF (child field facilitator) are responsible to take care of the children and make their mind cheerful by engaging them in drawing, preparing craft, giving playing kits and even by giving psychosocial counseling.

Rozina come to WCFS when she does not go for selling. She always had a dark shade on her face because of traumatized mental condition. After few days of coming to WCFS; she is getting closer with other children, playing with them, she is being bright day by day. She loves to do drawing. The CFF give her motivation not to be like gloomy again.

A ten years old children are not supposed to manage their livelihood. It impacts upon on their physical development as well as mental flourishment. It was quite challenging to heal up her inner depression and turn over from a stone-faced girl to a **Smiley** one but we put our **big efforts** to make small but **positive change**.

## CASE STUDY-1

Saifullah, WCFS

### Five-year-old Saifullah has found a supportive family in the Women and Child Friendly Space.

As the youngest of five children, Saifullah used to receive much of his parent's attention. Recently becoming a brother to another sibling, the attention Saifullah received from his parents lessened. Sensing this, Saifullah would leave his home, roaming the camp in search of friends and places to play.

Our Child Friendly Facilitator, Nigar, heard about Saifullah during a community outreach session. With a newborn baby, his parents were finding it difficult to keep track of Saifullah and give him the attention he needed. Saifullah had at times wandered off into the jungle or up onto the hills alone.

Concerned about his wellbeing, Nigar encouraged Saifullah's parents to let him join the sessions at the Women and Child Friendly Space, where Saifullah would be able to meet other children and play in a safe environment.

Initially nervous to join in with the other children in the Space, Saifullah now looks forward to the daily play sessions and is building his confidence with the support of Nigar – who Saifullah now calls 'apu'.

*"I heard that he was roaming around several dangerous places - the forest, hilly areas which was very unsafe for him. I motivated him to come here and first few days i went to his house regularly to bring him there. After some days, he started chasing after me like always call me 'apu'. Now he has many friends here. His mental condition is far better than before."*

**Nigar, Child Friendly Facilitator,  
Camp 05**

*"It is magical that Saifullah wants to go to your place [CFS] regularly. Usually he did not feel free to be harmonized with everyone, rather he has been very tetchy after this kind of displacement, he is less able to take mental stress. You really played an enchanted role."*

**Rozina, Saifullah's mother**

**Mohammed Hosen's health conditions put him at significant risk of developing other complicated health problems.**

Aged 60, Mohammed Hosen's is troubled by a range of health issues, including skin disease, back pain and a condition that affects his eyesight.

With no immediate family, Mohammed Hosen is isolated. His health conditions make it difficult for him to travel to our health post. Whilst he cannot travel to our health post, he should not be ignored. Our Medical Officer and Medical Assistant are providing Mohammed Hosen with regular house visits for frequent check-ups. Our Medical Assistant is delivering medicine and ointment to Mohammed Hosen on a regular basis through outreach services and informing him of the correct dosage.

He has been receiving healthcare services from our health post for the past 25 days.

*"I had been suffering from these painful diseases for so long and visited in another hospital in this camp. But that is very away from my residence and I did not get much care from there. Alhamdulillah! you [SMKK] are very cordial, caring and responsible too. Almighty Allah will save you, may Allah give you more strength to help mankind who are helpless, destitute like us."*

Md. Hosen, Camp 10  
Beneficiary of our health post

## Protection Watch Committee, Guide wall for the community....

In June, there was an incident like a bad guy entered into a house at midnight where there was an adolescent girl with bad intention. When the family member got to know, the bad guy fled away; immediately they called one of our protection watch committee member 'Solim' who was nearby. Solim went there and helped them to move somewhere else they preferred as they were being frightened for re-attack. The day after that solim sat with the protection watch committee about what to do in that issue and they all decided to took the family to CiC (Camp in Charge) to tell the event in details so that they got help. This is the best kind of protection assistance that they serve for the community and effective output of our protection watch committee.

*“The community trust us that makes us more liable to protect them. These kinds of problem mostly arise at night where we all are at sleep. It will be better if you provide us some torch light with that we can give a round at the community at night.”*

- Solim

Role telling by Protection Watch Committee

## ***“No Challenge can sustain in Good Works”***—Adolescent Girl Club

A bunch of happy faces of adolescent club answered when they asked if they faced any challenges to participate in club and to conduct session in the community. Rabeya, Ismot ara, Sumaya bibi are some of adolescent girls' club who are very happy to be a part of this good initiatives for the betterment of their community. Usually they are used to stay inside the home all day long. They have less opportunity to take part in any friendly space because of social stigma.

*“When our parents found that we get good information there about how to stay safe and secured, how we can protect ourselves from being abused and how to practice personal hygiene they did not restrain us from going there.”*—said Sumaya bibi.

According to them they do session in the afternoon when all of them finish their household chores and they disseminate messages through stories. If they directly conduct session community people seems to have less interest because the household member specially the women have many works to do.

*“I surprised when I saw I did not know many things. What we thought before as challenging is not challenging at all. now when you people ask if we face any problems to conduct session or to go outside of the home, I found it very convincing for my family as they know I am doing nothing bad rather good work for me and for others. Still there is a challenge; to change the behavior and perception of the community that we are practicing for so long. It requires a long time to settle some new ideas, understanding and practices.”*

*-Ismot Ara*
